(54) Title: ACTIVE SPECIFIC IMMUNOTHERAPY OF CANCER METASTASIS

(57) Abstract: The present invention provides for the treatment of a subject with occult brain metastasis. The treatment relies on administering to the subject a composition comprising an immunomodulatory polypeptide and a baculovirus-insect cell preparation. This composition has a unique ability to generate an anti-tumor immune response that is able to cross the blood-brain barrier.

INTERNATIONAL SEARCH REPORT

International application No.

PCT/US03/33395¹

A. CLASSIFICATION OF SUBJECT MATTER

IPC(7) : C07K 1/00; C07H 21/02

US CL : 530/350; 536/23.1

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

U.S. : 530/350; 536/23.1

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T"

later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X"

document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y"

document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
